

Frontier BH Room Furniture

Flexible and Durable Series for Behavioral Health Environments

Discover the Frontier BH Series, a rotationally molded collection designed exclusively for Behavioral Health settings. Consisting of a bed, bedside cabinet, desk, armless chair, and shelving units, Frontier is meticulously constructed from high-impact polyethylene, ensuring unparalleled durability. The bedside table's flip feature maximizes storage options, accommodating diverse healthcare needs.

Frontier BH Room Furniture

Features

- Stain-resistant, seamless, and easy-to-clean surfaces
- Rounded corners contribute to injury prevention and overall safety
- The bed features surface grooves for effective fluid management
- The flip-style bedside cabinet offers two versatile configurations
- Craftsman-style appearance adds a touch of sophistication

Options

- Personalize with our 5 color options to match your environment
- Bolt-to-floor or wall installation for added stability
- Secure the bed and chair to the floor for patient safety
- Patient restraint system for enhanced security
