Stacking Chairs

Strong and Stackable

The Net Stacking Chair is a highly ergonomic, multi-purpose stacking chair. Its strong metal structure and carefully designed polymer surfaces ensure comfortable seating for educational spaces and cafeterias. They stack up to 45 chairs at just under 7 feet, making it easy to install and uninstall into your space as the situation demands it.

Features

- Contoured, perforated polymer back reinforced by fibreglass
- Seat made of polymer with a waterfall front seat edge design
- Polymer seat-under cover and arm caps
- Hooks are built directly into the glides for hanging
- The frame is bent wire-welded steel and chrome-plated
- Chairs stack eight high on the floor and 45 high on a dolly
- Barstools stack up to four chairs high
- Plastic glides are fixed with screws

Options

- Polymer available in different colours
- Dolly with large casters for stacking
- Glides without ganging clips
- Flip-up tablet for both left and right-handed users and bookbasket
- A metal chair ganging mechanism for convenience

	Depth	Width	Seat Width	Height	Seat Height	Weight Capacity
