

STERIRACK® mattress storage

The smarter way to store and move mattresses.

sterirack®

Safe. Space-saving. Compliant.

SpaceLogic's vertical mattress storage system is designed to improve handling, reduce risk, and maximize space. Whether stationary or mobile, each module is built for durability, infection control, and everyday efficiency. Choose from our range or customize your own.

Why vertical storage makes sense:

- Prevents compression and dust build-up
- Frees up floor space and improves workflow
- Reduces manual handling risk for staff

Key features:

- Antimicrobial powder-coated frames – easy to clean
- Color-coded post strips – 14 colors available
- Smooth, lockable castors for easy transport
- Transport carts navigate tight corridors and doorways
- Tailored modules to suit mattress quantity and size
- Built-in options for bulk or single storage

Ideal for:

- Hospitals and day surgeries
- Emergency preparedness storage
- Central equipment stores
- Patient transfer bays and discharge lounges
