Station One

Foot Control SS IV Pole

The Station One Foot-Controlled IV Pole features durable, fully welded stainless steel construction with a stable 22" diameter 5-leg spider base and 2" swivel casters for smooth mobility. Its foot-operated mechanism allows hands-free height adjustment from 52" to 94", while a protective steel bar prevents accidental pedal activation. Includes a 1.25" diameter pole and a 4-hook ram's horn top.
