

Thera-Glide Oasis Glider

Healthcare Furniture

Thera-Glide Oasis Glider

The fully upholstered, self-locking OASIS gliders are available in two configurations to suit different healthcare environments. The SSG1 features smooth styling, single stitching, metal legs, and integrated rear wheels, making it well suited to spaces where both style and infection control are important. The SSG3 offers the same modern look with double stitching, wooden feet, optional wood armrests, and optional rear wheels, combining style, comfort, and adjustability.
