The Docker is a great way to provide comfortable healthcare grade seating for a multitude of applications with the durability required for high traffic use. Durability is achieved by using all metal components. The open base style steel base is both refined and elegant while still being easy to clean around.

Features

- Rear clean out space
- Wall saver
- Field replaceable components
- Durable construction for high use areas

Options

- Straight legs
- 3 way clean out space
- Wood or urethane arm caps
- Polished chrome, brushed chrome, or powder-coated legs
